State Auditor.

FISCAL YEAR ENDING NOVEMBER 30, 1912.

ANNUAL REPORT

OF THE

AUDITOR OF THE STATE

OF

NORTH CAROLINA

FOR THE

FISCAL YEAR ENDING NOVEMBER 30, 1912.

ANNUAL REPORT

OF THE

AUDITOR OF THE STATE

FOR THE
FISCAL YEAR ENDING NOVEMBER 30, 1912.

DEPARTMENT OF THE STATE AUDITOR,
RALEIGH, N. C., December 1, 1912.

*To His Excellency, W. W. KITCHIN,
Governor of North Carolina.*

SIR:—In obedience to the law, I have the honor to hand you herewith the Annual Report of the Department of the State Auditor for the fiscal year ending November 30, 1912.

The financial transactions and the condition of the State are summarized in the following statement:

Balance on hand December 1, 1911:		
Educational Fund.....	\$ 6,282.38	
General Fund.....	102,411.10	\$ 108,693.48
Receipts:		
Educational Fund.....	\$ 92,008.40	
General Fund.....	3,321,647.27	3,413,655.67
		\$ 3,522,349.15
Disbursements:		
Educational Fund.....	\$ 95,120.73	
General Fund.....	3,417,749.68	3,512,870.41
Balance.....		\$ 9,478.74
State warrants returned (see note).....		55,897.00
Actual balance on hand December 1, 1912.....		\$ 65,375.74

(NOTE.—The State warrants for this amount were regularly issued on several accounts, and were duly entered on the books of this Department, as issued for payment, and credited to the State Treasurer, prior to December 1, 1911. Since that date they have been returned to the State Auditor for cancellation, and the amount as shown above is entered as a debit against the State Treasurer, as are other receipts.)

SOLDIERS' HOME.

The General Assembly of 1911 appropriated \$30,000 annually for the maintenance and support of this institution, and made a special appropriation of \$3,400 annually for two years, to cover the deficit of \$6,800 existing December 1, 1910.

They also appropriated \$4,500 for the erection and equipment of a new ten-room cottage. This has been completed and is now occupied.

With the increased appropriation, with the deficit taken care of, and with the additional dormitory room in the new cottage, we have been enabled to provide the old veterans living in the Home with thoroughly comfortable apartments, with plenty of good, wholesome food, and at all times with prompt and efficient medical attention and hospital service.

As the years go by, the Old Boys in Gray are becoming more and more feeble, and the number occupying the hospital is increasing every year. We have a regularly employed physician, and in our hospital we have a corps of nurses who are not only thoroughly efficient in their line, but who are sympathetic, painstaking, and gentle in their ministrations to the sick and afflicted.

The buildings and grounds of the Home are in good condition, and the general health of the inmates is good, considering their advanced ages.

I feel that we have just cause for congratulation on the excellent financial showing for the past fiscal year. There was appropriated for last year for support, \$30,000. Up to November 30, 1912, we had disbursed \$27,550.04, which left us with a balance to our credit of \$2,449.96. Against this should be charged the amount of the bills for certain repair work contracted for but not paid for until this year, a part of which work was overhauling, renewing, and extending our sewer system. This work was not completed and paid for during the last year, and hence does not show on our books as disbursement, but is a liability which will reduce our surplus. This work is now under way, and some of it has been completed and paid for.

Below is a roll of the Home for the past year:

Number in the Home December 1, 1911.....	135
Admitted during the year.....	90
Died during the year.....	63
Discharged and placed on pension roll.....	27
Number in the Home November 30, 1912.....	135
Applications for admission on file.....	6

PENSIONS.

The pension roll for 1913 shows the total number of pensioners to be 16,538, classified as follows:

<i>Class.</i>	<i>Number.</i>	<i>Amount paid each.</i>
First	38	\$72.00
Second	173	60.00
Third	359	48.00
Fourth	9,449	30.00
Widows	6,519	30.00

The General Assembly of 1911 appropriated \$500,000 annually for pensions for the old soldiers, and this amount we have distributed among them for the past two years.

The work in connection with revising the pension lists every year, marking off those that die during the year and adding those that become eligible for a pension, is very considerable, and requires the utmost care.

This particular work is in charge of the Department stenographer, in connection with her regular duties, and the entire pension work is handled by this Department at not a penny's extra cost to the State, not a dollar being appropriated by the State for carrying out the pension law. In this connection I would recommend the appropriation of an amount not exceeding \$300 per annum for a pension clerk, who may be a member of the office force of this Department.

In addition to the general pensioners, we have a list of 115 special totally blind pensioners who draw \$10 per month. This class drew last year \$13,890.

TAXATION.

The present methods and practice of assessing real and personal property for taxation demand an immediate and radical readjustment in order that the State shall receive its just benefits.

The practice of listing property at a ridiculously low valuation and then allowing the counties to levy any number of special taxes to meet the requirements of the counties for their local government is unjust and unfair, and is depriving the State of revenue which justly belongs to it.

A properly assessed valuation for taxation of the property in the counties would mean a sufficient income to the county for the conduct of its affairs; an equitable receipt to the State for its taxes; an elimination of all special tax levies, and a reduction of the regular rate of tax.

This of course cannot be put into effect until all of the property in all of the counties has been scheduled at its true value, and a rate of tax agreed upon.

When this is done the State is ready to proceed to put these values into effect in all of the counties at once.

The work of scheduling this property should be done independently and apart from the regular tax listers and assessors in the counties, and should have absolutely no connection whatever with their work—in fact, the work of scheduling this property should be in charge of a State Tax Commissioner, with such assistants as he may deem necessary. These men so employed should be held accountable only to the State of North Carolina, thus removing local influence as far as possible. The counties should be made the unit for taxation, instead of the townships, as is now done.

The work should not be rushed through with, but a sufficient time should be given to each county to make the work thorough and the schedule complete.

This system or method has not only been worked out in other States and adopted with most satisfactory results, but has been applied to some of the counties in this State to such an extent as to prove it to be entirely practicable for us.

The method of collecting and reporting the special license taxes, under Schedules B and C of the Revenue Act, is unreliable and unsatisfactory, and means a loss to the State of thousands of dollars every year which by all rights should be turned into the State Treasury.

A thorough system should be prepared by which the State would have on file a complete list of all parties liable for special license tax in each county, certified to by the sheriff as being correct and complete. This list should be corrected and kept alive, and up to date, and the sheriff in each county should be held accountable for the prompt collection and payment of these licenses into the State Treasury.

STATE INSTITUTIONS.

From the number of State institutions, and the amount expended annually for provisions, supplies, and other necessities, it seems, from an economical standpoint, in the purchase of these articles in bulk, that the State could save a considerable amount by having a

central purchasing agent, whose sole duties should be contracting, on the best terms possible, for the supplying of these institutions with their requirements.

In the items of flour, meal, meat, and fuel alone, by the purchase in bulk, an amount could be saved in discounts and wholesale prices very much in excess of the expense of such a purchasing department.

This is not a theory, but has been shown to be the result by States and corporations using this method in procuring supplies.

For instance, the articles mentioned above, instead of being contracted for in car-load lots by the individual institutions, could be contracted for in 100 car lots for delivery at stated times, on cash terms, delivery to be made at times and places designated by the State's agent.

Institutions of the State receiving money from any source other than the State appropriation should be required to report such receipts in detail to the State, that proper record of same may be had and due credit given to the institution and to the source from which received. This is done in part now by some of the institutions, but there is no provision in the law requiring complete returns to be made.

I feel that I cannot conscientiously close this letter without expressing my appreciation of the deep personal interest which my entire office force, one and all, has taken in the work of the Department, in keeping it up to its high standard of efficiency, and for their loyalty and untiring efforts in making the interests of this Department of first importance.

Respectfully submitted,

A handwritten signature in dark ink, appearing to read 'J. P. Wood', written in a cursive style.

State Auditor.
